

Dear all:

We are very sad about the spreading of Coronavirus over China and it's harming so many countries including Taiwan and US.

Nevertheless, Coronavirus is spreading not by air, so we will continue our HS Seminars programs at TAC. Of course, if you are just back from China, perhaps you may quarantine yourself for 2 weeks.( Also you may wear masks if you so choose to be very cautious on your health conditions.)

Please remember to come to TAC on Wednesday Feb.12 to explore 《靈魂探勘宇宙之旅》 by listening to Dr.Loor.

For more details, please see the attached images or pdf files.

Remember Dr. Loor was our speaker last year if you still remember him.

See if you can remember what interesting topic he had covered last time?
