Please contact us if you can help on this book project and have other subjects for us to be considered for this series books.

- T. A. History Projects:

A number of research projects on this subject are in progress oversea now. We had scholars from Japan and Taiwan visiting us recently for their projects. It is beneficial to our community, if more scholars study our history & publicize the results of their studies.

We ought to collect more historical information, so we can be one of the important information sources for those scholars. We need your help for achiving this status.
